## **CLEAN BRIGHT**

### **Mosaic Floor Renovator**

#### **Product Description**

**CLEAN BRIGHT** contains a blend of acids and surfactants to provide exceptional cleaning and surface renovation efficiency. Specially developed for removing heavy build-up of oxide films, fungus, and light deposits of oil and grease, surfaces look like new again after cleaning.

#### **Areas of Use**

Use **CLEAN BRIGHT** on concrete, mosaic, glazed quarry and ceramic tiles on floors and walls.

#### **Special Features**

- Effectively cuts down heavy build-up of oxide films, fungus, and light deposits of oil on various hard surfaces.
- An excellent cleaner and brightener of certain aluminium and stainless steel surfaces (see Directions for Use below).

#### **Directions for Use**

- Dilute **CLEAN BRIGHT** with 5-10 parts of water, depending on amount of soil to be cleaned. For oily or heavily soiled surfaces, preliminary cleaning with a mild alkali detergent like **EASY CLEAN** or **POWER FORCE** is recommended.
- Apply by mop, cloth or acid-resistant sprayer. Spread over dirty floor surface.
- Let solution act on the surface for 1 to 2 minutes, then scrub briskly with a brush or scrubbing machine and flush thoroughly with water.
- Do not allow solution to dry on the surface.
- After renovating surface, maintain regularly with alkaline detergents.

**CLEAN BRIGHT** may also be used to clean and brighten certain grades of stainless steel and aluminium. Consult your KLENCO representative or distributor for usage directions.

*NOTE: Incorrect use will result in damage to the surface. Use **CLEAN BRIGHT** for one time use on severe build-up, and not as a regular cleaning solution. It will etch marble, terrazzo and other types of smooth or polished surfaces. If unsure about suitability of **CLEAN BRIGHT**, test on an inconspicuous spot first.*

#### **Precautions**

This product is acidic. Avoid ingestion, inhalation, skin and eye contact. Wear rubber gloves and protective clothing when handling. Allow for adequate ventilation. If ingested, consume large amounts of cold water to dilute. If product contacts skin or eyes, flush thoroughly with cold water and seek medical help as soon as possible. Store in a cool place and keep container sealed.

<b>SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES</b>	
<b>Appearance &amp; Odour:</b>	Clear amber liquid with suffocating odour.
<b>Solubility in water:</b>	Complete.
<b>Boiling Point:</b>	100 ° C
<b>Specific Gravity:</b>	1.190 +/- 0.005 g/cm <sup>3</sup>
<b>PH:</b>	1.0 +/- 0.5
<b>Flash Point (T.C.C.):</b>	None to boiling <b>Flammable Limits - Upper:</b> Not applicable <b>Lower:</b> Not applicable
<b>Vapour Pressure:</b>	Not determined
<b>Vapour Density:</b>	Not determined
<b>SECTION 10 - STABILITY AND REACTIVITY</b>	
<b>Reactivity/ In compatible materials:</b>	Strong alkalis and oxidizing materials.
<b>Chemical stability:</b>	Stable under normal temperature and pressure.
<b>Possibility of hazardous reaction:</b>	Will not occur.
<b>Condition to avoid:</b>	Not applicable
<b>SECTION 11 – TOXICOLOGICAL INFORMATION</b>	
<b>Acute toxicity: Oral:</b>	Ingestion of high amount of product is fatal.
<b>Skin or eye irritation:</b>	This product contains acidic material that will cause burns and intense irritation to eyes and/or skin.
<b>SECTION 12 – ECOLOGICAL INFORMATION</b>	
<b>Toxicity:</b>	Concentrations with a pH value of 6.0 or lower especially in fresh water may be fatal to fish and other aquatic organism. Can cause damage to aquatic plants and vegetation.
<b>Persistence and degradability:</b>	Product degrades readily by reaction of carbon dioxide in the air as well as decomposition by microorganism.
<b>Bioaccumulative potential:</b>	It is soluble in water and does not bio-accumulate.
<b>SECTION 13 – DISPOSAL CONSIDERATIONS</b>	
<b>Disposal method:</b>	Dispose off in an approved waste facility according to local regulations. It is recommended that an alternative be selected according to the following order of preference, based upon environmental acceptability: (1) Re-cycle or rework, if feasible (2) Incinerate at an authorized facility (3) Treat at an acceptable waste treatment facility.
<b>SECTION 14 – TRANSPORT INFORMATION</b>	
This material is non-regulated and no special requirement is necessary. HS Code: 34021390	
<b>SECTION 15 – REGULATORY INFORMATION</b>	
<b>International regulation:</b>	
Classification:	This product contains Hydrofluoric Acid as an ingredient that is classified as corrosive under EC Classification.
Risk phrases:	R28      Very toxic if swallowed R34      Causes burns
Safety phrases:	S07      Keep container tightly closed S18      Handle and open container with care S50      Do not mix with oxidizing materials.
<b>SECTION 16 – OTHER INFORMATION</b>	
<b>Hazard Rating: HMIS (Hazardous Materials Information System)</b>	
<b>HEALTH:                    2</b>	
<b>FLAMMABILITY:        0</b>	
<b>REACTIVITY:            1</b>	
<b>0=Minimal, 1=Slight, 2=Moderate, 3=Serious, 4=Extreme</b>
